An ISO 9001:2008 Certified Organisation

UNIFIED CYBER OLYMPIAD - UC305 (LEVEL - 1)

Solutions for class: 2

Mental Ability

1. (D)

Hence, **Oohita** stands **4th** in the queue.

2. (C)

∴ 23rd shape is **same as 5th shape** in the pattern.

i.e., 23rd shape →

3. (D) Number of stars used on each tree = 3
 Number of bells used on each tree = 5
 Number of trees = 5
 Total number of stars used = $3 \times 5 = 15$
 Total number of bells used = $5 \times 5 = 25$
 ∴ Number of bells more than stars = $25 - 15 = 10$

4. (B) Age of Nitya's daughter = 18
 Age of Nitya = $18 + 23 = 41$
 Age of Nitya in 5 years time = $41 + 5 = 46$
 Hence, Nitya will be **46 years** old in 5 years time.

5. (B) $63 - 18 = 45$, $40 - 25 = 15$,
 $80 - 14 = 66$, $78 - 35 = 43$
 Since, 15 is the least difference obtained,
 the required answer is **40 - 25**.

6. (C) $526 = 520 + 6 = 52 \times 10 + 6 \times 1$
 $= 52 \text{ tens } 6 \text{ ones}$

$$\therefore P = 52, Q = 6$$

7. (A) Total number of bananas = $6 \times 4 = 24$ and
 bananas eaten = 7
 ∴ Remaining number of bananas = $24 - 7 = 17$

8. (B) Time taken to slice a pizza into 2 equal
 pieces = 5 min.

To get 8 pieces, we required 4 cuts.

Time taken to slice same pizza into 8 equal
 pieces = $4 \times 5 = 20 \text{ min.}$

9. (B) 1 → 3
 1 → 2
 3 → 2 × 3 = 6
 1 → 6

10. (A) Cost of Teddy bear = ₹ 120
 Amount Suma needs more to buy teddy bear = ₹ 35
 Amount Suma have now = ₹ $(120 - 35) = ₹ 85$

11. (C) Number of  in X = 7 and in Y = 5.
Total  = $7 + 5 = 12 = 4 + 4 + 4$
 \therefore X should have 4 and Y should have 8 
Hence, 3  must be moved from X to Y.

12. (B) Cost of 2 oranges = ₹ 10
 \therefore Cost of 6 oranges = ₹ $10 \times 3 = ₹ 30$
Cost of 5 bananas = $5 \times ₹ 4 = ₹ 20$ and cost of 4 pineapples = $2 \times ₹ 50 = ₹ 100$
 \therefore Their total cost = ₹ $(30 + 20 + 100)$
= ₹ **150**

13. (C) If the blanket is heavy there will be more curve in the string towards the ground.
14. (B) The figures **b** and **c** are divided into equal parts.
15. (C) **5: 20 p.m.** is between 5: 00 p.m. and 6: 00 p.m.

Reasoning

16. (B) The first candy is similar to the fourth candy (i.e.,) we can say that the pattern is repeating after every three candies.

Hence, the candy which can replace Q should be **similar to the second candy** in the given row.

Hence, there are **8 triangles** in the given figure.

18. (B) Given,

$$\star = \bigcirc \bigcirc \bigcirc$$

$$\therefore 10 \bigcirc \text{'s} = \star \star \star \bigcirc$$

19. (C) Except in **option (C)** all other shirts have 5 buttons.
20. (B) Guitar is to clarinet as hammer is to saw. This relationship is about grouping. The guitar and clarinet are musical instruments. The hammer and **saw** are carpentry tools.
21. (D) The given shape  is hidden in the figure shown in **option (D)**.

22. (B) Except **option (B)**, the remaining things gives light through electricity.
23. (B) The given figure is similar to the figure in **option (B)**.

Hence, the number of triangles is **2**.

25. (A) The number of marbles in the bag decreases by 1 and the number of marbles outside the bag increases by 1 after each step.
26. (A) The given figure of octopus is exactly same as the figure in **option (A)**

Hence, the given shape is hidden in the **option (C)**.

28. (D) The given teddy bear is exactly same as the teddy bear in **option (D)**.
29. (D) The **last two digits** in each pair are **interchanged**.
30. (B) According to the given problem, there are two letters between B and E. Similarly one letter between P and R. Hence, there are two letters between A and D. Hence, the missing number is **2**.

Computers

31. (A) **Webcam** is a device which is used to take photographs, record videos and for video chatting.
32. (B) **ASCII** stands for American standard Code for Information Interchange which is a code for representing English character with corresponding numbers.
33. (D) **Windows** is an operating system which is a software.
34. (C) To access an object, you can **right click** the mouse on the object so that a menu will appear.
35. (C) Computers are used in hospitals **for preparing medical reports of patients**.
36. (C) 
37. (C) **Speakers** are required to listen to music.

38. (B) There are **104 keys** on a standard Microsoft keyboard.
39. (A) **C.P.U.** is used for processing data.
40. (A)  key is used to activate numeric keypad.
41. (D) Facts entered into a computer is known as **data**.
42. (B) In films or movies, **animations** are created using computers.
43. (D) **Computer** is an electronic device which processes and stores information.
44. (A) **Monitor** of computer is useful to view information on a screen.
45. (D) Computers are used for printing and designing newspapers in **publishing**.
- English
46. (D) Aarthi is sleeping **in** a tent.
47. (B) **Tomorrow**
48. (D) The meaningful word that can be formed from the letters, I, D, B and R is **BIRD**.
49. (C) The meaningful sentence formed is
- he is my cousin

3 4 2 1
50. (A) The word which comes first in the dictionary is **Desk**.
